Chlitina Holding Limited 2021 Business Report

Chlitina Holding Limited (hereinafter referred to as the “Company”) hereby reports its 2021 operating results and the summary of the business plan for 2022:

I. 2021 operating results:

1. Business plan and implementation:

Consolidated revenue of the Company in 2021 was NT\$5,271,313 thousand, up 29.96% as compared to NT\$ 4,055,996 thousand in 2020. Net income after taxes was NT\$1,355,257 thousand in 2021, as compared to NT\$959,636 thousand in 2020, or a 41.23% increase.

In terms of geographical breakdown, 97.42% of sales, or NT\$5,135,494 thousand, were made in Mainland China, as the region remained the largest market for the Company and its focus for business expansion.

2. Analysis of financial revenues and expenditures and profitability:

For the financial balance and structure, the assets to liabilities ratio in 2021 was 50%, the current ratio was 221%, and the net profit margin was 26% in 2020, with a net cash inflow of NT\$1,797,702 thousand. This demonstrates that even under the severe impact of the epidemic, the Company was still able to maintain ample cash flow, stable profitability, and an excellent financial structure.

3. Performance in research and development

The Company strives to apply the concept of a “medicine-based, beauty-oriented” skincare by providing professional solutions to women’s skin issues. Introducing advanced technology to the industry and focusing on various consumer groups in different market segments, the company continues to launch new products and broaden the distribution of its lines of products. In 2021, the Company’s franchise channels mainly promoted the Youthkeeper Serum – this product integrates the fruit of our own patented R&D, the nanostructured advanced lipid carrier technology, and is formulated with 7 core nanopeptides. Meanwhile, as an extension of our franchise channel, our e-commerce channel launched the co-developed P113+ Oral Care Series aimed at protecting oral microbiota. Different products are launched through different channels in order to satisfy to the greatest extent possible the needs of each individual consumer in terms of personalized skincare and healthy lifestyles.

4. Status of budget implementation

As there was no disclosure of any financial forecast in 2021, there is no information on budget achievement.

II. Summary of the business plan for 2022:

1. Operating guidelines:

1.1. We will upgrade our overall business strategy, focusing on the beauty + new consumption strategy, branching out from the beauty industry into the health industry, and striving to expand consumers’ quality of life.

The Company also intends to concentrate on the beauty and health industry, enriching its product portfolio around the concepts of “water, microbiome, and regenerative medicine.”

In terms of business model, the Company is evolving from a product-centered business model to one of intensive cultivation of customer value, providing high-quality services and products that meet the full cycle of customers’ needs.

1.2. Regarding the franchise channel, based on the marketing principle of “intensive cultivation,” we will work on improving management at existing franchises to help them increase profitability and overall quality, in the constant pursuit of long-term robust growth. In Mainland China, we will actively tap consumption potential and consumers’ needs in markets where we have low coverage. In each area, we will continue to strengthen the

management at every level, and maintain an efficient network expansion, while also taking into account the quality of that expansion.

In Hong Kong, Taiwan, and Southeast Asia, we will deepen brand awareness and speed up the addition of new stores to the network. We will reach out to local beauty markets by improving and enforcing franchise management strategies that are adapted to local developments. Furthermore, we will research and develop beauty and health products that are suitable for local consumers.

- 1.3. As far as e-commerce is concerned, the focus will continue to be on optimizing product range structure, and promoting “micro-ecology” products. We will use 24/7 marketing approaches with no geographical limit in order to improve the network deployment and product coverage.
 - 1.4. In the field of aesthetic medicine, we have promoted the development of our own aesthetic medicine clinics. Combining aesthetics, medicine and science, we are providing consumers with comprehensive beauty, health, and anti-ageing services. We also set foot in the high-end cosmetic medicine industry, taking advantage of advanced artificial intelligence and regenerative medicine to bring additional momentum to the Company’s revenue.
2. Future development strategy:

In order to expand the Group’s operational map, the Company will continue to implement the strategies of “product diversification,” “multi-channel selling,” and “diversified marketing” in accordance with the macro environment, industry characteristics, and market preference.

III. The impact of external competition, legal environment, and overall business operation environment

1. The impact of external competition and overall business operation environment:

In 2021, China has maintained its leading position in the world in terms of economic growth and epidemic prevention and control, while taking new steps toward building a new development model, achieving new results in high-quality development, and taking a good start with the “14th Five-Year Plan.” According to the “2021 National Economic and Social Development Statistics Bulletin” published by the National Bureau of Statistics of China, in 2021, China’s total economic output amounted to RMB114.4 trillion, or a year-on-year increase of 8.1% and an average growth of 5.1% for the past two years. Tertiary industries accounted for 53.3% of China’s total GDP. Under the stimulation of multiple factors such as industrialization, the development of the information technology and elevated consumer spending, growth in the tertiary, especially in the service industry, remained strong. Consumption drove the GDP by 5.3 percentage points, with an annual contribution of 65.4% to economic growth for the whole year. The level of urbanization keeps on increasing and the income gap between urban and rural residents continues to narrow. Local residents’ income grew faster than economic growth. The annual per capita disposable income increased by 9.1% as compared to the previous year. Excluding price factors, the real growth rate was 8.1%. The development of the service industry, continuing urbanization and the increase of per capita disposable income of urban residents all show the huge potential of the consumer goods market in China. The annual total retail sales of consumer goods reached RMB44.1 trillion, an increase of 12.5% from the previous year. Among the retail sales of goods above the designated size limit, cosmetics saw a growth rate of 14.0%, which was higher than the growth rate for retail sales of consumer goods. This goes to show that cosmetics have strong market support for stable growth.

In 2021, China has adhered to the general principle of seeking progress while maintaining stability, fully implementing new development concepts, accelerating the expansion of national strategic scientific and technological strengths, improving the resilience of the industrial chain, comprehensively deepening reform and opening up, adhering to innovation-driven development, and promoting high-quality development. Supported by a series of innovation and entrepreneurship activities and achievements, new industries, new formats and new models have developed faster, becoming a new driving force for economic growth and structural adjustment. In 2021, online retail sales of physical goods increased by 12.0% over the previous year, accounting for 24.5% of the

total retail sales of consumer goods, a percentage basically unchanged from the previous year.

In a rapidly changing external environment, the markets for beauty and skincare franchise and consumer goods are becoming more and more competitive. In a fragmented competitive market, high-quality brands have a strong market appeal and more opportunities for market integration. At the same time, franchisees' business operations are directly affected by the macroeconomic environment and consumers' disposable income. Under the current urbanization and mass entrepreneurship drives, the development of e-commerce will help break down geographical limits and expand consumer groups, which will bring more business opportunities to the Company. The transformation and upgrading of traditional industries and the online-and-offline integrated marketing methods have further highlighted the Company's competitive advantage in combining unique products and services.

2. Impact from the Legal Environment:

To operate skin care products manufacturing and franchise business in China, companies need to obtain numerous licenses and approvals and comply with the following regulations: "Hygienic Standard for Cosmetics," "Regulations Concerning the Hygiene Supervision over Cosmetics," "Detailed Rules for the Implementation of the Regulation on the Hygiene Supervision over Cosmetics," "Industrial Production Authorization Regulations," "Domestic Non-special Purpose Cosmetics Record Management Method," and "Cosmetics Labels Instructions Management Regulations," as well as "Regulation on the Administration of Commercial Franchises." Obtaining relevant licenses in accordance with the laws and regulations has a significant impact on the Company's business operations. As of the date of publication of this annual report, the Company does not need to renew any of the licenses or permits required for business operations.

Opinion

We have audited the accompanying consolidated balance sheets of Chlitina Holding Limited and its subsidiaries (the "Group") as at December 31, 2021 and 2020, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at December 31, 2021 and 2020, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission.

Basis for opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and generally accepted auditing standards in the Republic of China. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Group in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Group's 2021 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Group's 2021 consolidated financial statements are stated as follows:

Accuracy of sales discounts and allowances calculation and recognition

Description

Refer to Note 4(27) for accounting policy on sales discounts and allowances.

The Group offers sales discounts and allowances to customers based on mutual agreement which is recorded as deduction to operating revenue. Given its mathematical complexity, large volume and its significance in determining the Group's operating performance and financial condition for the investors and key management, we consider it one of the key audit matters.

How our audit addressed the matter

We performed the following audit procedures in respect of the above key audit matter:

- A. Tested whether the internal controls over sales and collection process (including manual and system controls) are effectively designed and performed.
- B. Obtained documentation reviewed and approved by key management to verify whether the estimates and calculation on sales discounts and allowances are accurate.
- C. Tested selected samples of sales discounts and allowances transaction, reviewed the supporting documentation and confirmed whether they are accurate.

Accounting estimates on inventory valuation

Description

Refer to Note 4(12) for accounting policy on inventory valuation, Note 5 for accounting estimates and assumption uncertainty in relation to inventory valuation and Note 6(5) for details of inventories.

The Group is primarily engaged in the research and development, manufacturing and sales of skincare products. Due to the short expiration dates of its products, the Group is exposed to higher risks of inventory valuation loss or overdue loss when purchase orders are modified or sales deteriorates unexpectedly. The Group evaluates inventories stated at the lower of cost and net realisable value and recognises provision based on the length of time to the products' expiration date.

Since the amount of inventories is significant, the inventory items are numerous, the evaluation of inventories is subject to management's judgement and the accounting estimations will have a significant influence on the inventory values, we consider the valuation of inventories as one of the key audit matters.

How our audit addressed the matter

We performed the following audit procedures in respect of the above key audit matter:

- A. Assessed whether the policy on the allowance for inventory valuation loss is reasonable based on our understanding of the Group's operations and industry.
- B. Tested whether the market value on which the net realisable value is estimated is consistent with the Group's policy, and validated, on a test basis, the selling price and the accuracy of net realisable value calculation.
- C. Obtained the detailed listings of products' expiration date, and inspected the related supporting documents and proper recognition in the financial statements.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the Group's financial reporting process.

Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the generally accepted auditing standards in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the generally accepted auditing standards in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- A. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- B. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- C. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- D. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- E. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- F. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

46. A Member who exercises his votes in writing or by way of electronic transmission in accordance with these Articles shall be counted towards the quorum. For the avoidance of doubt, those Members voted in writing or by way of electronic transmission shall, for purposes of these Articles and the Law, be deemed to have appointed the chairman of the general meeting as their proxy to vote their shares at the general meeting in the manner directed by the written instrument or electronic document; provided, however, that such appointment shall not be treated as an appointment of any proxy as defined under the Applicable Listing Rules. The chairman as proxy shall not have the power to exercise the voting rights of such Members with respect to any matters not referred to or indicated in the written or electronic document and/or any amendment to resolution(s) proposed at the general meeting, and the Members shall be deemed to have waived their voting rights with respect to any extemporary matters or amendment to resolution(s) proposed at the general meeting.
47. (1) A Shareholder shall submit his or her vote by way of written ballot or electronic transmission pursuant to Article 45 to the Company at least two (2) days prior to the scheduled meeting date of the general meeting; whereas if two (2) or more such

written ballot or electronic transmission are submitted to the Company, the proxy deemed to be given to the chairman of the general meeting pursuant to Article 46 by the first written ballot or transmission shall prevail unless it is expressly stated in the subsequent vote by written ballot or electronic transmission that the original vote submitted by written ballot or electronic transmission be revoked.

- (2) Subject to Article 53, in case a Member who has casted his votes in writing or by way of electronic transmission (the “**Prior Instruction**”) intends to attend the general meeting in person, he shall, at least two (2) days prior to the meeting date, revoke his previous votes by serving a separate notice (the “**Revocation Notice**”) in the same manner as such Member casted his votes; otherwise, subject to the laws of the Cayman Islands, the deemed appointment by the Member of the chairman as proxy shall remain valid. Under the laws of the Cayman Island, if a Member fails to serve a Revocation Notice in the aforesaid manner and attends the general meeting in person, unless the Prior Instruction is rendered irrevocable on the basis that such Prior Instruction was coupled with an interest or for other reasons under the laws of the Cayman Island, such Member shall still be entitled to vote in person and the deemed appointment by the Member of the chairman as proxy shall be deemed revoked.

48. *[Intentionally left blank]*

49. The proceedings regarding the general meeting and the voting in the general meeting not covered by these Articles shall be governed by the internal rules of the Company to the extent that they do not conflict with these Articles, as adopted and amended by an Ordinary Resolution from time to time, which shall be in compliance with the Law and the Applicable Listing Rules.

50. Where the Company has only one Shareholder, a resolution in writing signed by such Shareholder in accordance with these Articles shall be as valid and effective as if the same had been passed at a general meeting of the Company duly called and constituted.

PROXY

51. A Member may appoint a proxy to attend a general meeting on his behalf by executing a proxy form prepared by the Company stating therein the scope of power authorized to the proxy. A proxy need not be a Member.

52. A Member may only appoint one proxy for each general meeting and shall serve an executed proxy in compliance with the preceding Article to the Company or its designated Shareholders’ Service Agent as the case may be no later than five (5) days prior to the

relevant meeting date. In case the Company receives two or more proxies from one Member, the one received first by the Company shall prevail unless an explicit statement by the Member to revoke such proxy is made in the subsequent proxy, provided this subsequent proxy is received no later than five (5) days prior to the relevant meeting date.

53. In case a Member who has served a proxy (the “**Prior Instruction**”) intends to attend the relevant general meeting in person, a proxy revocation notice (the “**Revocation Notice**”) shall be made to the Company or Shareholders’ Service Agent at least two (2) days prior to the scheduled date of the general meeting; otherwise, subject to the laws of the Cayman Islands, the votes cast by the appointed or deemed appointed proxy at the meeting shall prevail. Under the laws of the Cayman Islands, if a Member fails to serve a Revocation Notice in the aforesaid manner and attends the general meeting in person, unless the Prior Instruction is rendered irrevocable on the basis that such Prior Instruction was coupled with an interest or for other reasons under the laws of the Cayman Island, such Member shall still be entitled to vote in person and the appointed proxy shall be deemed revoked.
54. A Member who is deemed to have appointed the chairman as proxy pursuant to Article 46 for purposes of casting his vote by written instrument approved by the Board or by way of electronic transmission shall have the right to appoint another person as its proxy to attend the meeting, in which case the express appointment of another proxy shall be deemed to have revoked the deemed appointment of the chairman as proxy under Article 46 and the Company shall only count the vote(s) casted by such expressly appointed proxy at the meeting.
55. The proxy form prepared by the Company shall be expressed to be for a particular general meeting only and shall include the following: (a) instructions on how to fill in and complete such proxy form, (b) the matters to be voted upon pursuant to such proxy, and (c) basic identification information of the Member as appointor, the proxy, and proxy solicitor (if any). To the extent permitted by the Law, the proxy form prepared to be used for a particular general meeting shall be sent out together with the notice of that general meeting, either in writing through post or by electronic transmission, as the case maybe, to all Members on the same day.
56. Except for trust enterprises or shareholders’ service agencies duly licensed under the R.O.C. competent authorities, save with respect to the chairman being deemed appointed as proxy under Article 46, where a Person acts as a proxy for two or more Members, the number of Shares with voting rights that the proxy may vote in respect thereof represented by him shall not exceed three percent (3%) of the total number of issued and outstanding Shares with voting rights of the Company; otherwise, such number of Shares with voting rights in

excess of the aforesaid threshold shall not be counted towards the number of votes cast for or against the relevant resolution or the number of Shares with voting rights present at the relevant meeting but shall be included in the quorum. Upon such exclusion, the number of Shares with voting rights being excluded and attributed to each Member represented by the same proxy shall be determined on a pro-rata basis based on the total number of Shares with voting rights being excluded and the number of Shares with voting rights that such Members have appointed the proxy to vote for.

57. The use and solicitation of proxies shall be subject to, the Law and the Applicable Listing Rules (in particular, the Regulations Governing the Use of Proxies for Attendance at Shareholder Meetings of Public Companies of the R.O.C.).

Where a Director is a Juristic Person, it shall designate a natural person as its authorized representative to exercise, on its behalf, the duties of a director. Any natural person designated as an authorized representative by such Juristic Person may be replaced by another natural person to be authorized by the Juristic Person from time to time so as to fulfil the remaining term of the office of the predecessor.
- (3) The Board shall be elected or appointed by Members upon a poll vote by way of cumulative voting (the manner of voting described in this Article to be referred to as “Cumulative Voting”) in the following manner:-
- (i) on an election of directors, the numbers of votes attached to each voting share held by a Member shall be cumulative and correspond to the number of directors nominated for appointment at the general meeting provided that such votes shall only cumulate in respect of such number of directors nominated within the same category (namely, independent or non-independent) of directors to be appointed;
 - (ii) the Member(s) may vote all or part of their cumulated votes in respect of one or more directors within the same category of directors to be elected;
 - (iii) such number of directors receiving the highest number of votes in the same category of directors to be elected shall be appointed; and

where two or more directors nominated for appointment receive the same number of votes which exceeds the number of new directors intended to be appointed, there shall be a draw by the such directors receiving the same number of votes to determine who shall be appointed; the chairman shall draw for a director nominated for appointment who is not present at the general meeting.

- (4) The proceedings and the voting regarding the election of Directors not covered by these Articles shall be governed by the Methods of Election of Directors of the Company and the internal rules of the Company, as adopted and amended by an Ordinary Resolution of the Members from time to time to the extent that they do not conflict with these Articles and subject to compliance with the Law and the Applicable Listing Rules.
59. The Company may, whenever it thinks fit, adopt and apply a candidate nomination mechanism for election of all the Directors. Subject to the Applicable Listing Rules, the Board may establish detailed rules and procedures for such candidate nomination. For election of Directors and Independent Directors among the Directors, the Company shall adopt and apply a candidate nomination mechanism in compliance with the Applicable Listing Rules and the shareholders shall elect the directors from among the nominees listed in the roster of Directors and Independent Directors candidates.
60. The term for which a Director will hold office shall be three (3) years; thereafter he may be eligible for re-election. In this event, if it is not specified in such resolution that the existing Directors will not retire until the expiration date of their terms of office or other specified date, they shall be deemed retired on the date of such resolution, subject to the successful election of the new Directors at the same meeting.
62. The Board shall have a chairman (the “**Chairman**”) elected and appointed in term by a majority of the Directors present at a meeting of the Board attended by at least two-thirds of all of the Directors then in office. The Chairman shall externally represent the Company

and internally preside as the chairman at every meeting of the Board and at every general meeting convened by the Board. In the event the Chairman is not present at a meeting or cannot or will not exercise his power and authority for any cause, he shall designate one of the Directors to act on his behalf. In the absence of such designation, the Directors present at the meeting shall elect from among themselves an acting chairman.

63. A Director shall not be required to hold any Shares in the Company; further, in order to improve corporate governess, the Company may, with the approval of a majority of the Directors present at a meeting attended by one-second or more of the total number of the Directors, purchase and maintain liability insurance for the benefit of all Directors, officers, and the directors, supervisors, or legal representatives of any Subordinate Company appointed by the Company against their liabilities resulting from acting in their capabilities as Directors, officers, or the other appointed positions during the term of office.
64. The remuneration of a Director may differ from other Directors, and shall be determined, regardless of the Company profits or losses of respective years, based on (a) the extent of a Director's involvement with the business operations of the Company, (b) the contribution of a Director to the Company, (c) the prevailing industry standard, (d) recommendation by the remuneration committee and (e) such other relevant factors.
65. When the number of Directors falls below five (5) due to a Director vacating his office for any reason, the Company shall hold an election for Directors at the next general meeting to fill the vacancy for the remainder of the term of such outgoing Director(s). When the number of Directors then in office falls short by one-third of the total number of Directors initially constituting the existing Board, the Company shall convene an extraordinary general meeting within sixty (60) days of the occurrence of that fact for the purposes of electing such number of Directors to fill the vacancy.

INDEPENDENT DIRECTORS

66. During the Relevant Period, the number of Independent Directors of the Company shall not be less than three (3) or one-fifth of the total number of Directors at any time, whichever is greater. One (1) of the Independent Directors shall be domiciled in the R.O.C. (such domicile being registered with local government authorities). Subject to the foregoing, the number of Independent Directors to be elected and hold the office shall be stated in the notice of the general meeting in which an election of Independent Directors will be held. When an Independent Director ceases to act, resulting in a number of Independent Directors then in office lower than the prescribed minimum number, an election for an Independent

Director shall be held at the next general meeting. When all Independent Directors cease to act, the Company shall convene an extraordinary general meeting to hold an election of Independent Directors within sixty (60) days from the date on which the situation arose.

67. Independent Directors shall possess professional knowledge and shall maintain independence within the scope of their directorial duties, and may not have any direct or indirect interest in the Company. The professional qualifications, restrictions on shareholdings and concurrent positions held by the Independent Directors shall be as prescribed by the Applicable Listing Rules, and the assessment of independence of such Independent Directors shall be in compliance with the Applicable Listing Rules. 69. The Board may from time to time appoint any Person to hold such office in the Company as the Board may think necessary for the management of the Company, including but not limited to officers and managers, and for such term and at such remuneration as the Board may think fit.
